Wyoming is now under the same despotism, but at last the press and the potism, but at last the press and the people are united against the wrong. Our territory is cursed by monepolies. The Union Pacific railway company stands at the head of the garg of pirates who have kept us down. They are combined with others who, if weaker, are no less unscrupulous. We say to the president of the United States that there is in Wyoming territory a band of men who for the paltry sum of point. A change is coming. The native a band of men who for the paltry sum of \$30 a month and board will do the will of the Union Pacific company, even to taking a man out and hanging him. either he or any other individual amounts to anything in the eyes of the public. The world would move on just the same. There is at stake, however, a great principle, and that is the right of the laborer. It has now come to "alshow down" and talk from corporations and their agents won't go. They may hang, burn and destroy but they won't do away with the clamor that is ringing through the air. This land is cursed by the presence of lawless characters, of lawdefying monopolies whose presence has always held it back. The time has come when they as well as the Chinese must go. This is a free country and Wyoming is no longer a territory in which the peo-

ple will consentt o be slaves. The Boomerang has put the facts before the people. It, together with the entire press of Wyoming, has determined to keep silent no longer. The assertion that our workingmen only differ from the Chinese in the fact that they came to us from another ocean pathway, is an insult which is entirely uncalled for. The miners at Rock Springs are men of intelligence and not "bummers and saloon loafers." as is declared by the loud

monthed representative of law, who thinks that with ten men he could whip the whole population of Wyoming. The Boomerang is not afraid of the Union Pacific nor of its agents and abetters. If violence is resorted to by this piratical corporation, there are plenty of other men to keep things booming, but it is our firm determination to give battle to a monopoly which is living at the expense of the United States government and has for many years downed the very country which gives it life. It is a battle of self-defense; it will be fought fairly, but it will not end until victory is won.

Money! Money!! Money to Loan—On chattel security by W. R. Crofe, room 4, Withnell building, N. E. corner 15th and Harney. After years of experience and a careful study of the business of loaning money on personal property, I have at last perfected a system whereby the publicity usual in such cases is done away with, and I am now no position to meet the demands of all who become temporarily embarrassed and desire to raise money without delay and in a quiet manner. Housekeepers, professional gent lemen, mechanics and others in Omara and Counci Bluffs, can obtain advances from \$10 to \$1,000 on such security as housenold furniture, planes, makinery, borses, wag-os, warehouse receips, secured notes of hand, etc., without removing same from owners residence or place of business. Also on fine Watches and Diamonds, One of the advantages I offer is that my part of any loan can be paid at any time which will reduce the interest pro rata and all owns renewed at the original rates of interest. I have no brokers in connection with my office, but personally superintend al my ioans, I have private offices connected with my general office so that customers do not come in confact with each other, consequently making all transactions strictly private.
